

**Look Presentable with
FingerTec Accessories Box**

Plenty of accessories are involved to complete a job for a door access system. FingerTec Accessories Box helps you to package all your required door access accessories before delivering them to your customer, saving you from performing multiple trips, or from accidentally leaving out important components. The box is designed with a handle for easy carry-on and to hold a maximum weight of 10kg, enough to contain a complete set of single-door accessories in it.

BENEFITS

- Inclusive of checklist, to assist planning.
- Improve your professional image as a system installer.
