RFID Tag
Tag along with your keys, so that you won't forget

RFID Tag

FingerTec RFID tag, a keychain-sized tag with an RFID microchip and antenna integrated in a compact package. The keychain tag employs 125kHz and complies with ISO proximity standards. Its small size makes it easy to carry and be used with access control system, time attendance system, ticketing, visitor management etc. It is constructed from ABS, a robust and water-resistant material. FingerTec RFID models, Kadex series and most biometric models for access control and time attendance supports the RFID keychain tag.

BENEFITS

• Contactless technology
• Complies with standard ISO/IEC 14443 to support most RFID readers in the market.
• Keychain-size design, small and compact for easy handling
• Robust, water and dustproof; durable in any environment.

SPECIFICATIONS

MODEL	RFID Tag
DIMENSION	40mm x 32mm
ISO STANDARD	ISO/IEC 14443
CAPACITY	64-bit
RESONANCE FREQUENCY	125kHz
SENSING DISTANCE	40 ~ 80 mm
