TA100 DIY
Fingerprint
Time & Attendance
System

A brand new FingerTec TA100 DIY – Do It Yourself Time Attendance System is a product that combines management software in a fingerprint reader. Connection between fingerprint reader and computer will no longer be an issue along with lost of transaction logs.

Using the latest concept, all the clocking schedule settings and user management configurations are managed from the reader itself. The attendance report in HTML format will be generated into USB flash disk directly from the fingerprint reader with only a few presses on the keypad. Reader installation can be performed easily minus installation cost or the need for network cable extension.

The simplified FingerTec TA100 DIY works efficiently in providing vital attendance reports include information on tardiness, short hours and overtime.
