Patrolling Device

Replace the conventional guard tour devices with NFC and Beacon (BLE Bluetooth) enabled smartphones, download the TimeTec Patrol app and the guards are good to go.

Checkpoint Tour System

To manage checkpoint routes for multiple clients and locations, get real-time updates for every checkpoint scanned on your guards' tours.

Manage Patrolling Routes

On top of the route assigned, supervisors can assign guards on duty with new tasks and additional routes on an ad hoc basis with ease.

Report Incidents

Guards can report incidents on patrols straight to the management in real-time with proofs and notes.

S.O.S Panic Button

During an emergency, guards can push the panic button on the TimeTec Patrol App, and this S.O.S function will automatically capture photos, record GPS location and send alerts to the emergency contacts.

GPS Tracking

Supervisors can view real-time GPS locations of their entire mobile security team. TimeTec Patrol also provides searchable historical reports and shifts in specific GPS locations.

Measurable ROI

TimeTec Patrol is value for money, because it provides users with accurate data to assess the effectiveness of their prevailing security personnels.

Secure Data Storage

TimeTec Patrol runs on Amazon EC2 platform and uses block level storage volumes by Amazon Elastic Block Store (Amazon EBS) which ensures the safety, security and reliability of your stored data.

TimeTec Patrol Application for Efficient Guard Management

Manage Guard and Patrol Location

Add guards into TimeTec Patrol & assign them to the respective patrol locations.

Reporting & Editing

Guards' patrolling records are valuable because the data is important to produce relevant reports to help maintain premises' security.

- Provides real-time data for managers to have access to the information required before making an informed decision.
- Sort reports by patrol location for easy patrol data management.
- Generate reports in PDF and XLS.

Guard Patrolling Management

TimeTec Patrol is flexible, easy to use and is able to handle complex patrolling assignments.

- Smartphone as tool and NFC tags/Time Beacon bluetooth as checkpoints for patrol check-ins.
- Records all guards' tour times and locations as they happen for effective guard monitoring
- Manages patrolling routes and checkpoints of security guards complete with real-time patrolling monitoring features.

Data Collection & Monitoring

TimeTec Patrol automates data collection process with the use of NFC tags and Time Beacon via TimeTec Patrol app during patrol sessions.

- Eliminates mistakes, intentional errors & dishonesty in the system such as 'buddy punching' and delayed patrol tasks.
- Reduces time spent on processing massive patrolling records.
- Obtain patrolling data and sync them in TimeTec Patrol automatically

Single and Multiple Locations Patrolling

Company can assign guards in single or multiple locations for patrol duties.

- Mobile app will capture all the patrolling records including checkpoint IDs, dates, time and GPS locations from all locations to be uploaded to TimeTec server.
- Security Managers or Supervisors can login to overview the entire operation in real-time.
- System will send notifications and emails to the person-in-charge when an emergency incident reported by guard on duty.

Security Managers At Remote Site

Real-time Monitoring and Automatic System Alerts

- Managers and supervisors can login to view the entire operations in real-time. System will send notifications and emails to the person in charge if there's any emergency cases reported by guards on duty.

User's Computer/ Mobile App

User's Computer/ Mobile App Reports and Analysis

- Users can generate analysis reports to justify and optimize their security workforce management.

System & Data Management

- Offer easy and automatic daily full system data backup and simplified full system recovery.
- User selectable ODBC compatible database is used to meet the enterprise level requirements, e.g. MySQL
- Support different levels of user privilege settings.

- ✓ Complete Automation
- ✓ High Quality Information
- ✓ Measurable ROI
- ✓ Exceed Expectations

Report and View Patrol Records Easily

Get TimeTec Patrol App from Google Play for your guards to view and report patrolling activities through a few simple steps!
