

**Achieve Security & Hospitality At the Frontline**

## Guardhouse Tablet Panel

**i-Visit App Visitor Management Module & Samsung Galaxy Tab 10.1**

Don't compromise hospitality in the name of security. Obtain them both with the Guardhouse Tablet Panel. The panel comes complete with a Samsung Galaxy Tab 10.1 for guards to access to an effective i-Visit App Visitor Management Module, an easy to use DIY tablet and a phone receiver connected to the whole system, to better improve the overall guardhouse operation.

### QR Scanning for Pre Registered Visitors

Scan the QR code via the tablet and verify the identity of visitor in split seconds upon arrival.

### Embedded OCR Module for Walk-In Visitors

The OCR module speeds up walk-in visitor registration by extracting relevant and important information from the identification provided i.e ID card/driving license.

### Tablet Stand

The tablet panel comes with a table stand that can be mounted on a table and a phone receiver for better guardhouse operation.

### Visitor Listing & Monitoring

Guards are able to monitor daily visitor movements when all information is accessible in real time.

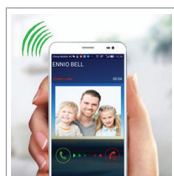

### Panic Button Alert

When residents activate a Panic Button via i-Neighbour App or TimeTec Smart Alarm, the buzzing alarm will go off at the tablet panel to alert guards on duty.

### Secured by Samsung Knox

Don't worry about guards accessing other Apps during duty time because Samsung Knox only allows access to i-Neighbour App Security Module.

### In App Intercom

Guards can contact residents and vice versa through the In App Intercom in i-Visit App VMS Module. Contact numbers of residents will remain concealed and protected for security and privacy purposes.

### Multilingual

The i-Visit App VMS Module is available in various languages and guards can choose to use their native language for better operation i.e. Nepalese, Malay, Chinese, Indonesia, Spanish, Arabic & etc.
