

Face ID 2 (FMM)

Face ID X

Quick Start Guide

Terminal Overview

Quick Start Guide

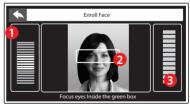

The Quick Start Guide is intended to provide the user with simple instructions on how to setup the terminal date/time and communication as well as to perform face enrollment and verification.

STANDBY MODE

- 1. Press KEYBOARD to key in the USER ID.
- 2. Press MENU to access the menu.
- 3. Terminal in standby mode, ready for scanning.

FACE ENROLLMENT

- Status bar to indicate the quality of the captured image; the higher the number, the better the image.
- 2. Displays the image of user captured during enrollment. Position your eyes in the green box.

3. Progress bar to indicate the progress of face enrollment.

VERIFICATION MODE

Displays the image of user captured during verification. Adjust your position so your face appears in the box for better scanning result.

SUCCESSFUL VERIFICATION MODE

The system will display your photo, user ID and name after verifying your identity.

Setting the Date and Time

- Press MENU > System > Date/Time and set the value.
- 2. You have two options for time format, 12-hour format or 24-hour format.

2 Enrolling Face

Refer to hardware user manual.

- 1. Press MENU > User Mgmt > New User
- 2. Enter your User ID and select Face.
- 3. Follow the instructions on the screen to enroll your face.
- Once the enrolment process is done the face template will be saved. Select the User Role if required and press return to the main menu.

3 Communication Settings

To input the IP Address, Subnet Mask & Gateway, press MENU > Comm > Ethernet > IP Address / Subnet Mask / Gateway

* Please obtain these information from your IT personnel that handles the network.

Software Roadmap

Online Activation

Use the terminal's serial number to activate your software online.

Contact your local reseller or support@ fingertec.com if you require offline software activation.
