

FINGERTEC®

IMPORTANT:

READ CAREFULLY BEFORE DOING ANY INSTALLATION

1. Only qualified FingerTec installers are recommended to handle FingerTec® door lock products installations.
2. Kindly refer to the correct wiring diagram, as the diagrams vary according to models.
3. It is strongly recommended to use electronic door lock with DC12V. Please consult electronic door lock supplier if using different current or voltage.
4. Contact us at support@fingertec.com for assistance.
