

InfoManager

Simple User Management

FingerTec InfoManager is a simple program that can be used for facilitating basic functions when using FingerTec OFIS-X Scanner, OFIS-Y Scanner or FingerTec Mifare Card Writer. With the complimentary program, perform functions such as enrolling Mifare cards, creating an identity database, etc. easily with just a few clicks!

OFIS-X

OFIS-Y

Mifare Card Writer

User Management

The InfoManager is a simple software application for organizations to manage user data information and user fingerprint templates.

Verify Identity Easily

With the InfoManager, you can have a basic station for you to verify your staff's identity for high security procedures (eg: collection of paycheck or pettycash).

Mifare Enrolling Station

With a Mifare Card Writer, create the perfect Mifare enrolling station for offices using FingerTec Mifare devices. Also, use the InfoManager to erase, edit and troubleshoot Mifare Cards.

Simple Installation

With just 2 simple components to install, the InfoManager is easy to setup, use, and manage.

Windows Compatible

The InfoManager is compatible and can be used with Windows XP, Windows Vista, Windows 7 and Windows 8.

User Friendly

The InfoManager is simple and straightforward. With only basic key features for you to use, the program is easy to understand and navigate.

A Solution at No Cost!

FingerTec InfoManager is free and can be obtained online on our resources page, and is also packaged with each Mifare Card Writer and OFIS Scanner.

Seamless Integration

The InfoManager is designed to seamlessly integrate with FingerTec OFIS-X and OFIS-Y scanner, as well as FingerTec Mifare Card Writer.
