IoT Package
for Facility Booking
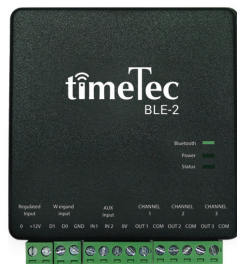

i-Neighbour
www.i-neighbour.com

Add IoT devices into your i-Neighbour App to enhance automation and security in facility booking management.

TimeTec BLE-2 for Automation & Security

Install TimeTec BLE-2 as access control device at neighbourhood's facilities to eradicate the need for the management and the guard to provide access to authorized users. With the use of TimeTec BLE-2, the i-Neighbour App will only provide access permission to users who have made the booking for the facilities accordingly. Most importantly, all access records are made available to users and the management admins for reference.

BLE-2

INCLUDING

1. 1 unit TimeTec BLE-2
2. 1 unit onvif EpiCam E17S
3. 1 set accessories: EM lock, back up battery, emergency break glass, on-off key switch, power supply, and DIY metal casing

Note: *1. The price above is excluding installation & cabling.*
2. Community has to provide Internet access with a router and wifi modem to adopt the above IoT devices.

EpiCam E17S
for Surveillance Monitoring

Install IP cameras for the management to obtain visual image of users when they access the facilities.
