

## A Quick Scan & Go

# QR110

QR Code Access Control

QR Code

Simply scan your way with QR110 to conveniently obtain access to your space. The administrator just needs to issue all credentials for the authorized personnel and every time these credentials are used, the bundled software will record every activity accurately as well as keep the data secure for future references. QR110 links to Ingressus controller to control the access to your premises. Get QR110 for a simple, affordable and convenient access control system.

### Small Size

With a width and height of 5.0 cm and 8.6 cm respectively, the size of the QR110 is ideal for most environments.

### Safe and Secure

QR110 is a slave reader and all data will be kept in Ingressus controller before being downloaded to Ingress for further processing.

### Low Implementation Cost

Users can use their smartphone for QR code and gain access without having to invest in additional tokens or gadgets.

### Manage Data Easily

Install Ingress to monitor all the data from QR110 and use all features that the software offers through IP connectivity.

### Quick and Accurate

Each verification of credential takes around 1 second; you do not need to worry about long queues to access your premises.

### Aesthetic Design

QR110 is suitable for any types of offices and premises, and it is equipped with a buzzer and LED for action indication.

### Linked to Ingressus

Connect QR110 to Ingressus controller for secure door access transactions and all. Data will be available in the Ingress software.

### Visitor Pass

Create a QR code with timezone restriction and share it with the visitor for temporary access. No need extra cards or other tokens for visitor access purposes.
