

TCMSV2 Viewer - A Simple Utility To Monitor Your Attendance Data

FingerTec® TCMSV2 Viewer is a web based interface for TCMSV2 administrators and/or users to view his/her attendance sheet on a web browser on multi platform (Windows, Linux or Macintosh) from anywhere. The viewer implements the basic features that are available in TCMSV2 by using the Microsoft .NET framework 2.0. User does not need to install any other software at the computer before using the TCMSV2 viewer. Some of the features available include querying for a user attendance sheet data, printout of attendance sheet report from any computer with a web browser (Microsoft Internet Explorer, Mozilla Firefox or Apple Safari).

Features:

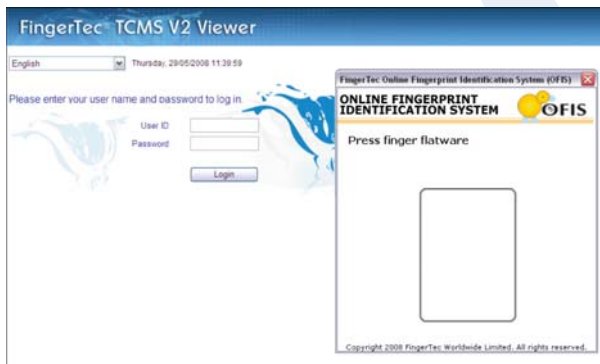

Allow enrollment of user login password through OFIS scanner. This feature is optional.

TCMSV2 Viewer supports multi language (English, Chinese Simplified, Chinese Traditional, Spanish and Arabic).

Multilingual

Administrator has authority to view every user's attendance sheet using TCMSV2 viewer.
