

Efficient and Cost Effective Cloud Attendance Systems

TimeTec Cloud is the Internet-based time attendance software offered on a cloud platform by FingerTec Worldwide. With TimeTec Cloud, the attendance data from the identification devices will be stored at a cloud server, allowing customers to access the application online at anytime based on their authorized access levels. With a few clicks, a user can browse through a variety of attendance reports made available online to find solutions to the existing problems or to maintain the present conditions to the preference. The key benefits of having this TimeTec Cloud solution are the efficiency it brings to managing time attendance of employees from the smallest office with a few head count to a large organization that have employees distributed across branches worldwide, and also the cost effectiveness for to the entire operation.

GET MORE with TimeTec Cloud

3 Different Platforms at only One Price of USD2/user monthly

TimeTec Cloud works with 3 different platforms at only 1 price; biometrics devices, web check-in and mobile devices, providing you with flexibility in monitoring employee that a company needs.

Eradicate Buddy-Punching Totally

Combination of biometrics devices and TimeTec Cloud promotes honesty amongst employee and eradicate buddy-punching occurrences where an employee punches in for an absence fellow employee.

No Maintenance Required

TimeTec Cloud provides easy and maintenance free systems from the get go. There's no requirement for a maintenance contract or to engage with an expensive IT experts in order to ensure having a smooth system all year long.

Access Anywhere

TimeTec Cloud allows access to your data from anywhere based on your level of access right. Think about it this way, if your staff understands that the data is transparent and can be accessed by higher level of management, discipline will definitely takes care of itself.

Provide comprehensive view of attendance

At USD2 per user monthly, you know exactly the amount of time your company lost due to employees' indiscipline, areas of time lost, the amount of lost your company is facing every month and you know exactly the people and the department that can be accountable for that. Having that sort of data in place, strategies can be planned to correct the areas that need improvements in an organization.

Scalable

With TimeTec Cloud, there's no need for a high initial investment, you could buy more licenses as your business grows.

Easy-to-use

Setting up and navigating TimeTec Cloud is a breeze with ample assistance offered online such as Wizard, and Guide Me all throughout.

Right price

In April, TimeTec Cloud is offering a new package for its customers. The price is maintained at RM2 per user per month but instead of 25 users per block at USD50 minimum, now you can get it at 10 user/block at USD20 minimum. For those who do not need login license for each staff, a 30% discount is offered to the total amount starting this April. Don't miss this great opportunity to deploy TimeTec Cloud at a lesser cost.
